DAILY PRESTART — NOTES

SAMPLE — Fabrication shop · 13/10/2026

Session details

Company: Lennox Facades
Start time: 06:30
Supervisor / foreman: Test supervisor
Focus / team: Day shift / Fabrication crew
Record status: Completed

1. Hazard identification

Talking points: Identify welding fumes, sparks, hot metal, sharp edges, grinding debris, pinch points, suspended loads and forklift traffic. Record today’s hazards and agreed controls.

Comments / discussion / agreed controls: Maintain extraction and hot-work exclusion zones.

Discussed: Yes

2. Personal protective equipment

Talking points: Check task-specific eye and face protection, hearing protection, footwear, clothing and suitable gloves. Confirm assessed respiratory protection requirements, fit and condition.

Comments / discussion / agreed controls: Eye, hearing and respiratory protection checked.

Discussed: Yes

3. Safe work practices

Talking points: Confirm hot-work controls, fume extraction, machine guards, isolation, lifting checks and pedestrian separation. Use approved work methods and required permits.

Comments / discussion / agreed controls: Guards and isolation checked before work.

Discussed: Yes

4. Emergency procedures

Talking points: Confirm the assembly point, evacuation route, emergency contacts and access to emergency equipment. Identify today’s changes.

Comments / discussion / agreed controls: Exits clear; assembly point confirmed.

Discussed: Yes

5. Incident reporting & first aid

Talking points: Name the first aider and locate first-aid kits. Explain how to report injuries, incidents, hazards and near misses under the workplace procedure.

Comments / discussion / agreed controls: First aider and kit locations confirmed.

Discussed: Yes

6. Questions & discussion

Talking points: Invite concerns about today’s tasks, unfamiliar work, equipment or controls. Record questions, answers and actions.

Comments / discussion / agreed controls: Crew asked about lifting routes; exclusion zones agreed.

Discussed: Yes

Follow-up actions

No actions recorded

Attendance acknowledgement

Each attendee signed on the supervisor’s device to acknowledge attendance and an opportunity to ask questions. Attendance times are entered by the supervisor; a blank time is not inferred from the signature.

Test worker · Acknowledgement: Yes · Signed: 13/10/2026, 7:27:43 am AEST
